Mueller Streamline A15503

Pressure Relief Valve — Product Specification Summary

Specification	Details
Manufacturer	Mueller Streamline
Manufacturer Part Number	A15503
Product Type	Pressure Relief Valve
Pressure Setting	450 PSI (approximately 31 bar)
Inlet Connection	3/8" NPT
Outlet Connection	1/2" Flare
Application	Refrigeration system overpressure protection

Important: This is an independently prepared product summary based on supplied product details, not an original Mueller manufacturer datasheet, conformity document, or factory pressure-setting certificate. Confirm markings and suitability for the intended system before installation.
